Community Service

Volunteer Tutor, Horizons for Youth, Chicago, IL 2019–Current

- Since tutoring Melanie, she has thrived academically finishing 7th grade with all A's. Her teacher had begun sending her home with extra work above a 7th grade.
- I work with her teacher, parents, and Horizon staff to provide the best possible support.
- Without this organization, her family would have a difficult time affording extra help. No child is turned away due to their academic ability.
